# Independent Auditors' Report on Review of Condensed Consolidated Interim Financial Information

## To the Shareholders of Dubai Electricity and Water Authority (PJSC)

### Introduction

We have reviewed the accompanying 31 March 2023 condensed consolidated interim financial information of Dubai Electricity and Water Authority (PJSC) ("DEWA" or "the Authority" or "the Company") and its subsidiaries ("the Group"), which comprises:

- the condensed consolidated interim statement of financial position as at 31 March 2023;
- the condensed consolidated interim statement of profit or loss and other comprehensive income for the three-month period ended 31 March 2023;
- the condensed consolidated interim statement of changes in equity for the three-month period ended 31 March 2023;
- the condensed consolidated interim statement of cash flows for the three-month period ended 31 March 2023; and
- notes to the condensed consolidated interim financial information.

Management is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with IAS 34, *Interim Financial Reporting*. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

## Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 31 March 2023 condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34, "Interim Financial Reporting".

### 1 Establishment and operations

Dubai Electricity and Water Authority ("DEWA" or "the Authority" or "the Company") was incorporated on 1 January 1992 in the Emirate of Dubai by a decree ("the Original Decree") issued by H.H. The Ruler of Dubai, effective 1 January 1992, as an independent public authority having the status of a body corporate, and financially and administratively independent from the Government. In accordance with the Original Decree, all rights, property and assets of Dubai Electricity Company ("DEC") and Dubai Water Department ("the Department") belonging to the Government, were vested in the Authority, and the Authority was held responsible for all liabilities and debts of DEC and the Department, of any kind whatsoever. Together, DEC and the Department formed DEWA from the effective date of the Original Decree.

The principal activities of the Authority, in accordance with the Original Decree and Decree No. 13 of 1999 which amended some of the provisions of the Original Decree, comprise water desalination and distribution and the generation, transmission and distribution of electricity, throughout the Emirate of Dubai. The registered address of the Authority is P.O. Box 564, Dubai, United Arab Emirates ("UAE").

During the prior years, the Authority was wholly owned by the Government of Dubai which announced its plan to list the shares of the Authority on the Dubai Financial Market (DFM). In the year 2022, Department of Finance (DoF), Government of Dubai had sold 18% of its shareholding in the Authority through an Initial Public Offering ("IPO"). The Authority got listed on the Dubai Financial Market (DFM) and its shares started trading with effect from 12 April 2022.

The ownership structure of the Authority is as follows:

	Ownership before listing	Ownership after listing
Department of Finance (DoF), Government of Dubai	100%	82%
Local and international investors (including institutional and retail investors)	-	18%
	<u>100%</u>	<u>100%</u>

DEWA and its subsidiaries are collectively referred to as "the Group". The Group either directly or indirectly controls following significant subsidiaries, which are domiciled in UAE:

## 2 Summary of significant accounting policies

The principal accounting policies applied by the Group in the preparation of this condensed consolidated interim financial information are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

### 2.1 Basis of preparation

The condensed consolidated interim financial information for the three month period ended 31 March 2023 have been prepared in accordance with International Accounting Standard 34 '*Interim Financial Reporting*'.

The Group's condensed consolidated interim financial information are presented in UAE Dirhams (AED), which is also the Group's functional currency. Subsidiaries and joint ventures determine their own functional currency and items included in the financial information of these companies are measured using that functional currency. All financial information presented in AED has been rounded to the nearest thousand.

The accounting policies applied are consistent with those of the annual consolidated financial statements for the year ended 31 December 2022, as described in those financial statements, except for certain new and revised standards that became effective in the current period (if applicable). This condensed consolidated interim financial information does not include all the notes of the type normally included in the annual consolidated financial statements. Accordingly, this condensed consolidated interim financial information should be read in conjunction with the annual consolidated financial statements for the year ended 31 December 2022.

The preparation of condensed consolidated interim financial information in conformity with International Financial Reporting Standards ("IFRS") requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the Group's condensed consolidated interim financial information are consistent with the annual consolidated financial statements for the year ended 31 December 2022.

Results for the three month period ended 31 March 2023 are not necessarily indicative of the results that may be expected for the year ending 31 December 2023.

### 2.2 Basis of measurement

This condensed consolidated interim financial information has been prepared on a historical cost basis except for financial assets and financial liabilities measured at fair value.

### 2.3 Use of estimates and judgments

In preparing the condensed consolidated interim financial information, management has made judgments, estimates and assumptions that affect the application of the Group's accounting policies and the reported amount of assets and liabilities, income and expenses.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected. In preparing this condensed consolidated interim financial information, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation and uncertainty were the same as those that applied to the annual consolidated financial statements as at and for the year ended 31 December 2022.

## 3 Financial risk management

### 3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, price risk and cash flow and fair value interest rate risk), credit risk and liquidity risk.

The condensed consolidated interim financial information does not include all financial risk management information and disclosures required in the annual consolidated financial statements. Accordingly, this condensed consolidated interim financial information should be read in conjunction with the annual consolidated financial statements as at 31 December 2022. There have been no changes in the risk management department or in any risk management policies since the year end.

### 3.2 Fair value estimation

All financial assets and liabilities are initially measured at cost, which is the fair value of the consideration given and received respectively. These financial assets and liabilities are subsequently measured at amortised cost.

The carrying value of financial assets and financial liabilities approximates their fair value except derivatives which are the only financial instruments which are carried at fair value and fall into Level 2 of the fair value hierarchy.

To provide an indication about the reliability of the inputs used in determining fair value disclosed in this condensed consolidated interim financial information, the Group has classified its financial instruments into three levels described below:

- a. Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- b. Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2); and
- c. Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

## 4 Seasonality of operations

Due to the seasonal nature of the operations of the Group, higher revenues and operating profits are usually expected in the second half of the year than the first six months. In the year ended 31 December 2022, 44% of revenue accumulated in the first half of the year, with 56% accumulating in the second half.

## 5 Segment reporting

Information about reportable segments and reconciliation of information on reportable segments to the amount reported in the annual consolidated financial statements for the year ended 31 December 2022.

Information related to each reportable segment is set out below. Segment profit (loss) before tax is used to measure performance because management believes that this information is the most relevant in evaluating the results of the respective segments relative to other entities that operate in the same industries.

## 6 Property, plant and equipment (continued)

- (a) The Group has engaged in a joint operation pertaining to Emirates National Grid Corporation ("ENGEC"). The Group's share in the carrying amount of ENGEC's assets as at 31 March 2023 is AED 107 million (31 December 2022: AED 109 million) and is included under transmission and distribution networks.
- (b) During 2008, by way of a Decree issued by H.H. The Ruler of Dubai, all existing plots of land held by the Authority were transferred to the Authority. As a result, the Authority has capitalised the plots of land on the basis of valuations (i.e. valuation based on use limitations) obtained from the Land Department of the Government of Dubai, which is considered the deemed cost and has been treated as a capital contribution by the Government of Dubai.

On initial recognition:

- The valuation of land is done based on the valuation certificate issued by Dubai Land Department and such valuation is considered for the lands issued in the same area/zone in future.
- The valuation of land so adopted (original value) will not be changed even if the area/zone is changed by the Dubai Land Department subsequently.

As per communication from Department of Finance, Government of Dubai, effective 10 March 2022, the new land policy in respect of allotment and granting of lands in the Emirate of Dubai by the Dubai Land Department to the Authority will be in consideration for a rental value of AED 1 per plot per annum for 30 years. This policy shall apply to all future lands that will be allotted to the Authority, but not on the existing lands that are currently being governed under the existing regime. The Department of Finance, Government of Dubai and the Authority shall coordinate to take all actions and procedures to procure the issuance of a decree that shall formalize the proposed policy for all future lands.

- (c) Capital work in progress mainly comprises construction of additional electricity generation, water desalination facilities, transmission and distribution networks and district cooling facilities.
- (d) The interest rate used for capitalizing the borrowing cost is LIBOR plus applicable Margin. The interest on borrowings capitalised using this interest rate is AED 184 million (31 December 2022: AED 1,164 million) (refer note 30).
- (f) Right-of-use assets mainly represents vehicles and other equipment as of the reporting date.
- (g) During the period, the Group recorded land received from the Land Department of the Government of Dubai amounting to AED Nil (31 December 2022: AED 65 million (net)).
- (h) Depreciation is allocated as detailed below:

## 9 Derivative financial instruments

The Group is exposed to interest rate movements on various borrowings maturing between 2017 and 2042. Some of the Group's subsidiaries have entered into a series of interest rate swaps for the duration of the borrowings to mitigate the risk of variation in future interest rates. These interest rate swaps were designated as cash flow hedges and were assessed to be highly effective. Net unrealised loss of AED 512 million *(for the three month period ended 31 March 2022: gain of AED 1,938 million)* relating to these hedging instruments is included in other comprehensive income.

The tables below show a summary of the hedged items, the hedging instruments and their fair values. The notional amounts indicate the amount outstanding at the year end.

At the end of the period/year	<u>78,174</u>	<u>72,859</u>

The Group's subsidiary started construction of its head quarter project in 2021. The project consists of two towers with common area and retail outlets which are expected to be completed during the third quarter of 2023.

During the year, management revisited its plan of occupation and concluded to occupy only one tower for its use along with its related common area. As a result, the carrying amount of one tower and related areas were transferred to investment properties from property, plant and equipment (refer note 6).

The investment property is under construction which is expected to be completed in 2023. The fair value of investment property approximates to the carrying value.

### 18 Equity

#### (a) Share capital

In the prior years, an amount of AED 500 million had been transferred to share capital account from capital contribution. The Board of Directors of the Authority had authorised the breakup of the share capital into 50 billion shares of AED 0.01 each. All shares of the Authority shall rank equally with one another in all aspects. Hence, the share capital of the Authority consists of authorised and paid-up capital of AED 500 million as of 31 March 2023.

#### (b) Capital contribution

This account represents amounts contributed by the Government of Dubai (both in kind and cash) as an Owner of the Group since the incorporation of the Group.

## 18 Equity (continued)

### (c) Statutory reserve

As required by applicable law and Articles of Association of the Authority and certain subsidiaries, 5% of the net profit for each period has been transferred to a statutory reserve. Such transfers to reserves may cease when the statutory reserve equals to half of the share capitals. The reserve is not available for distribution except as stipulated by the law. The statutory reserve of the Authority has already reached the 50% threshold and hence no further transfers were made to statutory reserves. On 10 October 2022, the suspension of transfer to statutory reserve was approved by the General Assembly.

### (d) Hedging reserve

The hedging reserve primarily represents the fair value of derivatives which are part of effective cash flow hedging relationships at period/year end. As the derivatives are held for hedging purposes as defined by IFRS 9, their fair value movements are retained in other comprehensive income instead of being charged to profit or loss during the period. The fair value movements will be adjusted in other comprehensive income in the same period as the corresponding hedged transaction.

### (e) General reserve

In the prior years, the general reserve represented surplus distributable profits earned by the Group. In the year 2022, the balance in general reserve had been transferred to retained earnings.

## 19 Borrowings (continued)

The Group has secured borrowings amounting to AED 27,588 million (31 December 2022: AED 27,360 million) and unsecured borrowings amounting to AED 11,964 million (31 December 2022: AED 13,330 million).

Borrowings are secured by pledge of assets (refer note 6), corporate guarantees, government guarantees and letter of undertakings.

### (i) Others

Other loans represent loans taken by subsidiary companies from various commercial banks and shareholders.

The fair values of other loans are not materially different to their carrying amounts since the interest payable on these borrowings is close to current market rates.

### (ii) Long-term loan

During the previous year, the Authority had obtained a long-term Shariah compliant loan of AED 10,000 million from Emirates NBD PJSC. The loan carries interest at 1-month EIBOR + 0.7%. The term of the loan is five years and repayable in full upon its maturity. However, during the period, the Authority has repaid AED 1,400 million (2022: AED 1,700 million) of the loan.

## 24 Regulatory deferral account-credit balance

The prices that can be charged to customers for electricity and water by the Group are subject to oversight and/or approval by the Dubai Supreme Council of Energy. Hence the Group is subject to rate regulation. The Dubai Supreme Council of Energy through its notification issued in 2010 had allowed the Group to recover the additional costs it incurs due to the escalation in fuel prices considering 2010 as the base year from its customers.

The Dubai Supreme Council of Energy is also controlled by the Government of Dubai and it is a related party of the Group.

On the transition date, the Group had elected to apply the requirements of IFRS 14 Regulatory Deferral Accounts and will continue to apply its current accounting policy for recognition, measurement and derecognition of this regulatory deferral account balance.

The movement in regulatory deferral account-credit balance has been detailed below:

	31 March 2023 AED'000 (Unaudited)	31 December 2022 AED'000 (Audited)
At the beginning of the period/year	95,343	379,024
Short collection during the period/year	(65,426)	(283,681)
At the end of the period/year	29,917	95,343

## 25 Related party transactions and balances

The Group transacts with the Government of Dubai, subsidiaries, joint ventures and entities controlled, jointly controlled or significantly influenced by the Government of Dubai within the scope of its ordinary business activities. Since the Group is majority owned by the Government of Dubai post its listing of shares on Dubai Financial Market (DFM), these entities are jointly referred to as 'government related entities'.

The Group applies the exemption relating to government related entities under IAS 24 'Related Parties' and only discloses transactions and balances with government related entities which are individually or collectively significant. To determine significance, the Group considers various qualitative and quantitative factors including whether transactions with related parties are based on approved terms and conditions by management.

Key management personnel and entities controlled by them are also related to the Group. Key management personnel of the Group comprise the directors and executive vice presidents (EVPs) of the Authority and employees of the Authority who are acting as directors of the subsidiaries.

### Related party transactions

The material transactions and balances with related parties are disclosed below, except as disclosed in notes 6, 13, 15, 19, 21, 24, 26, 27, 28, 30, 31 and 34 in these consolidated financial information.

### Related party transactions (continued)

#### (a) Sale of electricity and water

As is common with many other entities, the Group deals with various government entities in Dubai. Quantities of electricity and water sold to UAE nationals are at subsidised rates. The Group calculates the value of these quantities supplied at approved rates and these amounts are settled by the Department of Finance (DoF), Government of Dubai.

During the current period, the Group has collected AED 25 million *(for the three month period ended 31 March 2022: AED 21 million)* in respect of handling charges on behalf of a related party (refer note 26).

#### (b) Purchase of goods and services

The Group purchases fuel from entities owned by the Government of Dubai. During the current period, the Group purchased fuel amounting to AED 1,397 million *(for the three month period ended 31 March 2022: AED 1,353 million)* from various entities.

During the current period, the Group purchased water amounting to AED 351 thousand *(for the three month period ended 31 March 2022: AED 1 million)* from a related party of the Group.

#### (c) Transactions with banks owned by Government of Dubai

The Group transacts with various banks and financial institutions which are wholly or partially controlled by the Government of Dubai. All of the Group's transactions with such banks are on approved commercial terms. A portion of the cash and cash equivalents as disclosed in note 17 was included in deposit held with such banks.

### 36 Comparative figures

The previous period/year figures have been regrouped wherever necessary, in order to conform to the current period presentation. The regrouping does not affect the previously reported net assets, total equity and the profit or loss and other comprehensive income.

### 37 UAE Corporate Tax Law

On 9 December 2022, the UAE Ministry of Finance released the Federal Decree-Law No. 47 of 2022 on the Taxation of Corporations and Businesses (the Law) to enact a Federal Corporate Tax (CT) regime in the UAE. The CT regime will become effective for accounting periods beginning on or after 1 June 2023.

As at 31 December 2022, the Law was not considered to be substantively enacted from the perspective of IAS 12 – Income Taxes since the threshold of income over which the 9% tax rate would apply and other clarifications were yet to be prescribed by way of Cabinet Decisions.

The Cabinet of Ministers Decision No. 116/2022 effective from January 2023, has confirmed the threshold of income over which the 9% tax rate would apply, and the Law is considered to be substantively enacted. A rate of 9% will apply to taxable income exceeding AED 375,000, a rate of 0% will apply to taxable income not exceeding AED 375,000.

The Group will be subject to taxation commencing 1 January 2024. Based on the above, the Group assessed the deferred tax implication and concluded it is not expected to be significant as of and for the three month period ended 31 March 2023. As certain other Cabinet Decisions are pending as on the date of these condensed consolidated interim financial information, the Group will continue to assess the impact of these pending Cabinet Decisions on deferred taxes as and when finalised and published.

### 38 Subsequent event

Subsequent to the period end, on 10 April 2023 the Shareholders in the Annual General Meeting of the Authority approved a final dividend for the year ended 31 December 2022 amounting to AED 3,100 million and a special one time dividend of AED 1,670 million, as recommended by the Board of Directors of the Authority, but not recognised as a liability at the period end.
