AMI (ADVANCED METERING INFRASTRUCTURE)
WATER METER INSTALLATION

WATER METERS ON WALL (FOR VILLAS & SHEDS)

NOTES:

- The water meters shall be installed on the exterior wall of the building, below the eaves, and shall be protected from weather conditions.
- The water meters shall be securely fastened to the wall using appropriate hardware.
- The water meters shall be connected to the water supply and drainage systems as per the local building codes and regulations.
- The water meters shall be calibrated and tested at the time of installation to ensure accurate readings.
- The water meters shall be maintained regularly to ensure proper functioning.
